Answers to Quiz # 1

Question # 1 D- Red Tide - Although last year's blue algae was bad in the Caloosahatchee, the RED TIDE in-shore and offshore was the reason for the closure.

Question # 2 A - In general, most fish are only good for one minute out of water.

Question # 3 C - The gills dry out. Once the gills lose their moisture they can never function again

Question # 4 D - They are All True. Remora and shark are more commonly known, but redfish follow both mullet and stingrays, looking for things to eat off the bottom, things that those 'bottom feeders' stir up.

Question #5: A - From right to left. The ripples you see are always on the downstream side of a piling
